

**Greener Hopkinton**  
**May 16, 2013, 7:00 PM at Slusser Center**  
**Draft Minutes**

In attendance: Barbara Fales, Chris Aslin, Brenda Lewis, Bethann McCarthy

The minutes of the April meeting were approved.

The group reviewed some resolutions from municipalities throughout the U.S., including two in New Hampshire, on energy efficiency, environmental preferential policy and anti-idling. We chose a few as templates to use in developing a document to present to Selectmen for discussion and potential adoption. Based on input from the group, Chris and Bethann will work on developing some language to review at our next meeting scheduled for 3rd Thursday of June.

We discussed the Community Garden, which has been tilled and marked off. Bethann has used community garden funds to purchase straw as a weed suppressor. It was planned to drop off the straw after the meeting.

Respectfully submitted,

Bethann McCarthy
