Discussion took place about State Adequacy Aid, Medicaid, and the amount of State Funding.

Steve Chamberlin was asked if he could provide the Budget Committee with some sample bond runs. Mr. Chamberlin explained that they had used a bond run with a decreasing 20-year bond run because they would save over a couple hundred thousand dollars. Concern was voiced that the Town and School would both be having bonds coming on in 2021. The Town Bond would result in a \$350K annual payment and the School Bond would result in a \$849K annual payment. Michelle Clark explained that the actual bond runs will not take place until May 2020, that's when the final decision is made on which type of bond will be used.

PUBLIC COMMENT

Judi Case expressed discouragement in the public not having information more readily available to them about upcoming bonds, explaining that the public may not have the time to read through all the Town's and School's different board and committee minutes to find this information. Her concern, regarding the School Budget, is that we're spending all this money for 1,022 students.

She requests that the documents being presented at meetings be available ahead of time, allowing those watching the streaming to have the documents to follow along with. The message she would like to bring is that it's going to be difficult, she and other people like her will ask the Budget Committee to make difficult decisions - to cut or revisit every line item – because the combination of these two budgets are too expensive. We are not a big growth town; the pool is static that we are taxing from. Many of the taxpayers are on fixed incomes.

Ms. Case asked why the budgets are not put on a ballot? According to the report of last year's Town Meeting, only 5.4% of the registered voters came out to approve that budget. She suggests SB2 should be looked at again.

Ms. Case asked if the School District has a master plan (5, 10, 20-year) in place? It was suggested that she attend a School Board meeting and ask them this same question.

Anna Wells wanted to acknowledge the Budget Committee's difficult job. The Budget Committee is presented with numbers and then these numbers must be presented to the Town. These numbers have meaning, this is very difficult to portray when it's just the numbers being looked at.

BOARD DISCUSSION

Don Houston shared his concern that if the two budgets continue to increase by 4% per year and then we add the 2 bonds, in 2 years the tax rate could increase over \$5.00/\$1,000. Once he has final figures to input, he will share the outlook.

Ken Traum clarified the valuation going up town wide. The town and schools are not getting any more money, the tax rate is reduced comparably.

Ginni Haines shared her concern for those people who will see their payments and escrows increase. They will be faced with thousands of dollars' worth of catching up.

DISCUSSION OF SCHOOL BUDGET BY THE BUDGET COMMITTEE

There was no discussion of the School Budget, this will take place at the upcoming meetings.

ANY OTHER BUSINESS TO COME BEFORE THE BOARD

Ken Traum explained that the CIP Committee met with the Select Board and voted to change the amount of the bond they are seeking to \$2.2M, and to have a separate Warrant Article that, in the first year, would start at \$100,000. That would mean that the tax impact for this next calendar year would be an increase of 7.87% or \$0.49/\$1,000. This would give us enough money to do the most urgent issues on culverts and road work and start to have an annual line item, Road and Bridge Capital Reserve Fund, after that.

ANY OTHER BUSINESS TO COME BEFORE THE BOARD, continued

Discussion took place about the presentation of the budgets - Who will make the presentations? What format will be used to present the budgets? A suggestion was made that a meeting with the moderator should take place ahead of time. Tom Lipoma offered to help with the PowerPoint presentations. Rich Houston offered to present the budgets.

MOTION TO ADJOURN

Ken Traum motioned to adjourn at 8:00 pm. Jonathan Cohen seconded the motion. There was no further discussion. A vote was taken. All Board Committee Members approved. The vote passed.
