Old Hopkinton Cemetery Mapping Project

Project Overview

My project was to map out the oldest sections of the Old Hopkinton Cemetery in Hopkinton, NH. The problem was that with 1,250 people buried in these sections, and the earliest headstone dated 1777, there was no easy and accurate way of finding anyone in the cemetery. If a visitor was looking for an ancestor, they could only be given a general idea of where in the cemetery their ancestor might be. Each headstone in the area would have to be examined, and the visitor would have to hope the headstone they were looking for was not unreadable, broken, or missing. As a result of this project, visitors to the cemetery will now be able to easily find headstones using maps that I created. In addition, copies of my entire project have been given to the Hopkinton Cemetery Trustees and the Hopkinton Historical Society.

I started the project by photographing each headstone and assigning each of them a location based on row and section of the cemetery. I then matched the photographs with burial records maintained by the Hopkinton Cemetery Trustees and inscriptions (if applicable) from "Gravestone Inscriptions Of All Cemeteries Within The Township of Hopkinton, New Hampshire," compiled by Priscilla Hammond for the Rumford Chapter of the Daughters of the American Revolution in 1932. Along the way I made various corrections (spelling, dates, section of the cemetery, etc.) to the burial records. I then created a database which includes name, date of birth, date of death, section, row, position, inscription, and a photograph of the headstone. For burials that have taken place since 1932, I entered the inscriptions into the database. I also created a map of each section to show the relative location of each headstone.

I would like to thank everyone who helped me with this project: my family for encouraging and supporting me throughout the project, the Boy Scouts from Troop 77 for their help measuring distances and verifying data on several hot summer days, my Troop 77 Leaders for providing expert guidance and keeping me focused, and the Hopkinton Cemetery Trustees for supplying the data to get started on the project, and the enthusiasm to complete it.
