

Hopkinton Village Precinct Water District Meeting Agenda

October 17, 2022, 6:30pm

- Finance Update
 - A/R and A/P, review, and signatures. Collection ideas for outstanding A/P.
 - Other financial topics for review.
 - Support for customer with cross-connect billing issues.
- Lot Line Adjustments
 - Review of updated map and warrant article.
 - Discussion ahead of the Oct 20 meeting with the Precinct commissioners, Tom will attend and water should be represented.
 - ZBA would be looking for input from the Precinct commissioners.
 - Discussion of logistics around a special Precinct meeting, if needed.
- Project Status
 - System online for one month; pursuing removal of Notice of Violation with DES.
 - WSO+ working on the O&M manual
 - Adding wires to connect well flow meter to the new control system.
 - Minor programming changes in process.
 - Backfill scheduled for November.
 - Additional HVP Topics:
 - Bolting down pumps.
 - Minor leaks and general clean up.
 - DES monthly update from PLC instead of PC.
- Electronic Bill Payment
 - Any update on using PayPal? Mention this in the next end-of-year update.
- Leak Detection
 - Planned, and company contacted Josh but no update.
 - Representative curb stops on the different segments of the system to be tested.
- Misc Customer Issues
 - 45 Main St house sale – met with homeowners, looking for clarification from WSO+ if they have additional information on the easement.
- Cleaning and Maintenance
 - Cleaning/updating chemical dispenser in process.
 - Chemical room – cleaning not complete.
 - Progress on estimate for clean-up of brush and weeds.
- Source Protection Grants
 - Two options: additional security and wildlife control. Submittals due Nov 1.
 - Additional security: Cameras with DVR and sensors. Review of proposals and input on that, update and consideration for submittal.
 - Brian Vose and GSWRA proposal for wildlife control at culvert, backup is www.bestwaywildlife.com as an option for a proposal.
- New Drinking Water MCL Standards/Limits
 - PFOA and PFAS, NH leads in this area, but Federal level may be less than NH's MCL.
 - NH DES looking for a Manganese standard about July 1, 2023, 0.3 mg/L likely.
- Meter reading for October – Mike; November – Sandy; December – Rick.
- Next meeting: Monday, November 21, 2022 at 6:30 pm, WSO+ attending.
- Other business.
