

Hopkinton Village Precinct Water District Meeting Agenda

May 17, 2021, 6:30pm

- Meet with Brian Vose, Granite State Rural Water Association
 - Intro to GSRWA
 - GIS data work, based on Asset Management Program Grant
 - Leak detection and other services
 - Membership in the GSRWA
- Finance Update
 - A/R and A/P, review and signatures.
 - Other financial topics for review.
- Project Status
 - Requested quote for painting interior pump room.
 - Waiting for input on Joe for equipment; Tim has been offsite for a couple of weeks.
- Meter reading for June – Rick; Meter reading for July – Mike.
- Contoocook Precinct Meeting, quick review.
- CCR coming up for July 1; needs to be sent to the state with attestation and all customers; have first pass from WSO+, will review last year's and put something out for review in June.
- Joe at WSO+ still looking into the issue with the chemical waiver option as well as whether we can stop our 4 consecutive quarters of PFAs testing early.
- Actions from Site Meeting on May 15
 - Sandy looking into costs to replace the locking top on the monitoring well.
 - Rick to look into replacing all the gate/electrical locks, mechanisms are aging outside.
- Drought Update – still abnormally dry.
 - Met with former water board member and well designer Charlie Head to review the nature of the water source that feeds our system, better understanding for planning during drought periods.
 - Distribution system is the issue, not the supply as of yet. Even with dry conditions the system should be able to supply the needs of the Precinct.
 - Options to control the load on the distribution system - allow watering or not by days/location/house number, no watering; review state guidance.
 - Review information on penalties.
 - Settle on key points of doc to draft and distribute, timing.
 - If no ban, Rick to reach out to those who requested early audits.
- Thomas Morin Lot Lines Adjustment Discussion
 - DES says the well setback is 300 feet.
 - Thomas may want to pursue with DES to get a better understanding.
- Asset Management Grant – waiting to hear back.
- DWGTF Loan/Grant
 - Corresponding with Elijah, state environmental engineer to answer his questions.
 - No additional communication on whether we are still under consideration.
- SRF Grant Program – Applied, but this is less subjective, based on points, likely we won't have enough points, but we will follow the process through as an alternative for a low-cost loan if DWGTF falls through.
- Other business.
